Narriv.

PITCH DECK · NARRATIVE INTELLIGENCE

Know the issue before it spreads.

Narriv monitors news, YouTube, social media and AI answers every hour, scores the risk, and tells the right person what to do and by when.

MONITOR EVERY HOUR • DETECT RISK • ALERT THE OWNER • BOARD-READY REPORTS

WHY REPUTATIONS GET CAUGHT OFF GUARD

Issues move faster than your team.

The conversation is scattered

Online news, YouTube, TikTok, X, Instagram and now AI answers. No team can check all of them every hour.

You hear about it too late

Teams often learn about an issue from a WhatsApp screenshot or a call from the boss, once it is already loud.

Nobody owns the response

Dashboards full of charts do not say who should do what. Issues get discussed, then left hanging.

Narriv.

THE WINDOW

THE FIRST 24 HOURS DECIDE IT

Whoever knows first wins.

How an issue typically spreads. Narriv is built so your team steps in during the first hour, not the twenty-fourth.

One post

A complaint or claim appears on one account.

Shared on

Other accounts react and share it.

Picked up by press

Online media write about it; searches climb.

The story sets

The loudest version is what people remember.

- **Narriv checks every hour and alerts the moment the risk crosses a threshold.**

NARRIV

From conversation to decision.

More than social listening: Narriv closes the gap between seeing an issue and handling it.

1

Monitor

News, YouTube, social media and AI answers, automatically every hour.

→

2

Detect

Mentions grouped into issues, with sentiment and risk scored.

→

3

Assign

Alerts go to an owner, with the next step and a deadline.

→

4

Report

A daily brief and a board report ready to send, PDF and Excel.

Narriv.

COVERAGE

WHERE NARRIV LISTENS

Every channel, every hour.

Including the Indonesian-language outlets that international tools often miss.

- Online news
- YouTube
- TikTok
- Instagram
- X
- Facebook

+ AI ANSWERS

ChatGPT · Claude · Gemini · Perplexity · DeepSeek

Social: Decision plan · AI: Intelligence plan

Narriv.

FEATURE · RISK

RISK SCORE & ISSUE MAP

One score, clear reasons.

Mentions become issues

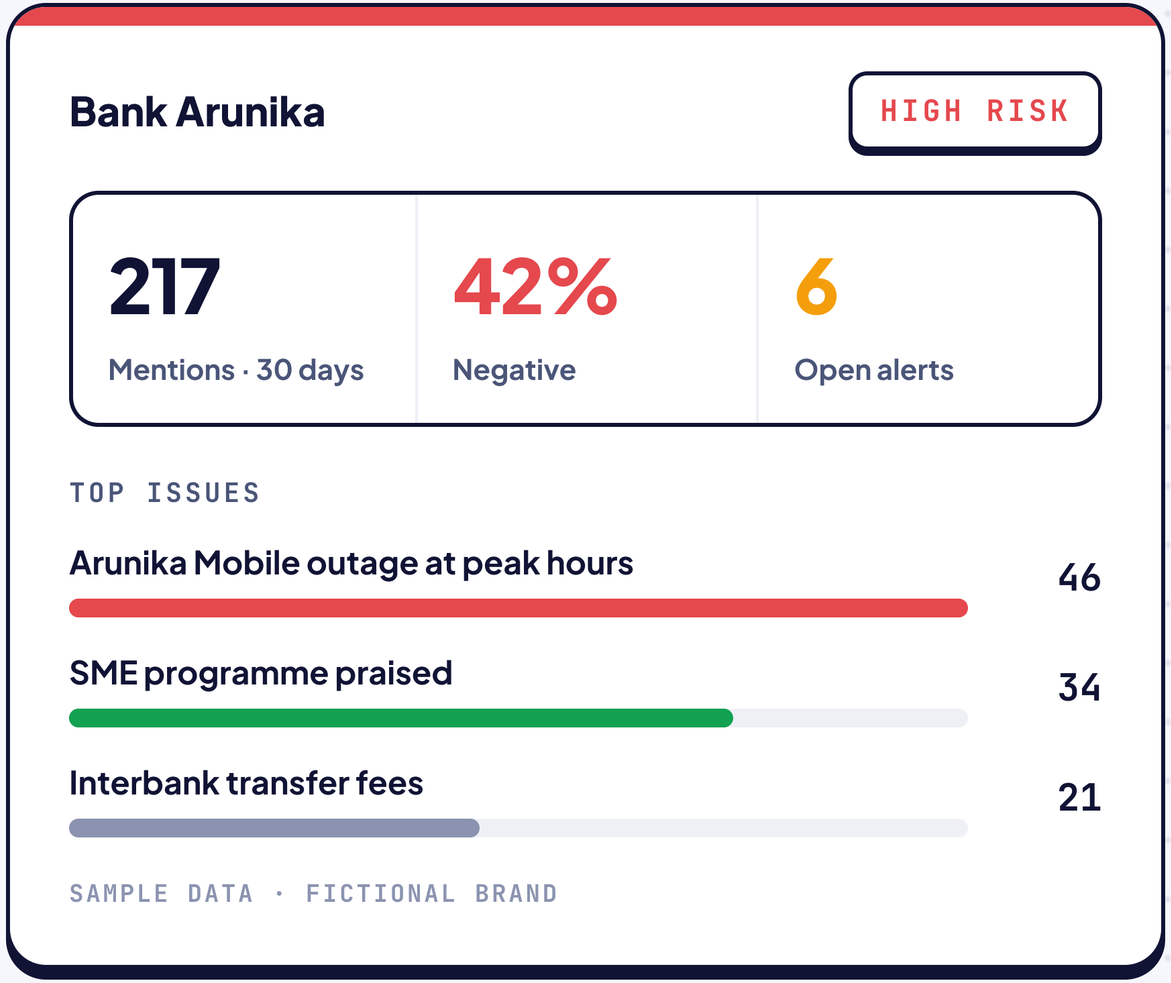

Hundreds of posts grouped into a few narratives you can act on.

Risk with its drivers

See which issue pushes the score up, and how fast.

Against last period

Every number shows direction: up, down or steady.

Narriv.

FEATURE · ALERTS

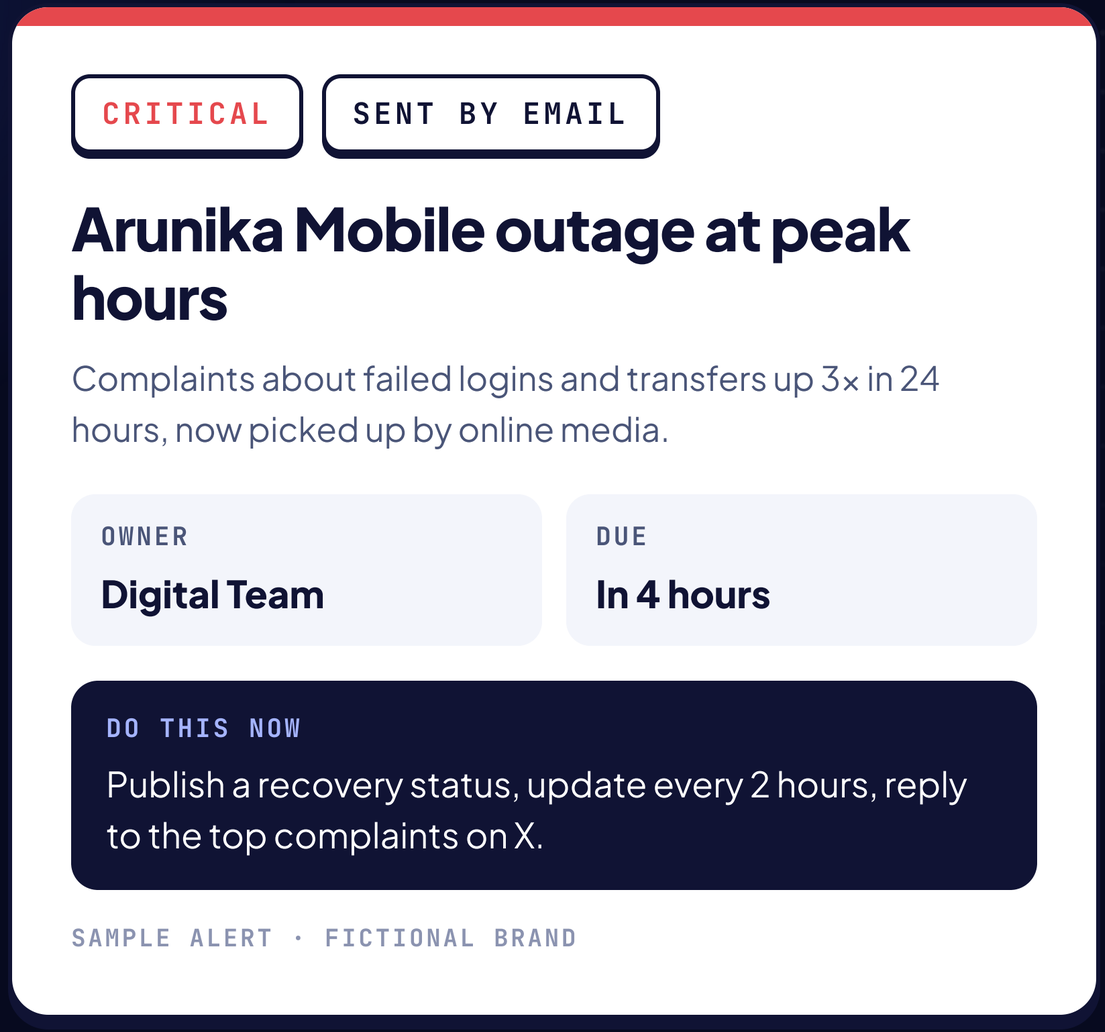

ALERTS WITH AN OWNER

Every issue gets an owner & deadline.

Sent to the right person
By email, plus Slack, Teams or webhooks on Decision.

The next step is written for you
What happened, what to do, and by when.

An escalation matrix
Who is told and who decides, by severity (Decision plan).

Narriv.

FEATURE · BRIEFING

DAILY BRIEF & ASK NARRIV

Every morning, know what to do.

BRIEF · 07:00 WIB

3 steps today

Negative sentiment is up, driven by the app outage.

1. Publish a recovery status before 10:00
2. Brief customer service with the same answer
3. Amplify the positive SME programme story

Why did negative sentiment rise this week?

Narriv.

Mostly from the Arunika Mobile peak-hour outage (46 conversations), mainly on X and Facebook. Two news articles picked it up on Tuesday.

3 SOURCES CITED

Ask Narriv answers only from your workspace data and cites it. When the data is thin, it says so.

Narriv.

FEATURE · AI VISIBILITY

A NEW PLACE REPUTATIONS FORM

What does AI say about you?

People now ask AI assistants before they search. Narriv checks how AI describes and recommends your brand.

AI ASSISTANTS CHECKED

CHATGPT · CLAUDE · GEMINI · PERPLEXITY · DEEPSEEK

AI visibility score

- Mentioned for category questions
- Product facts correct
- Old issue still mentioned

SAMPLE DATA · FICTIONAL BRAND

Narriv.

FEATURE · REPORTS

BOARD-READY REPORTS

One page the board reads.

Decisions first

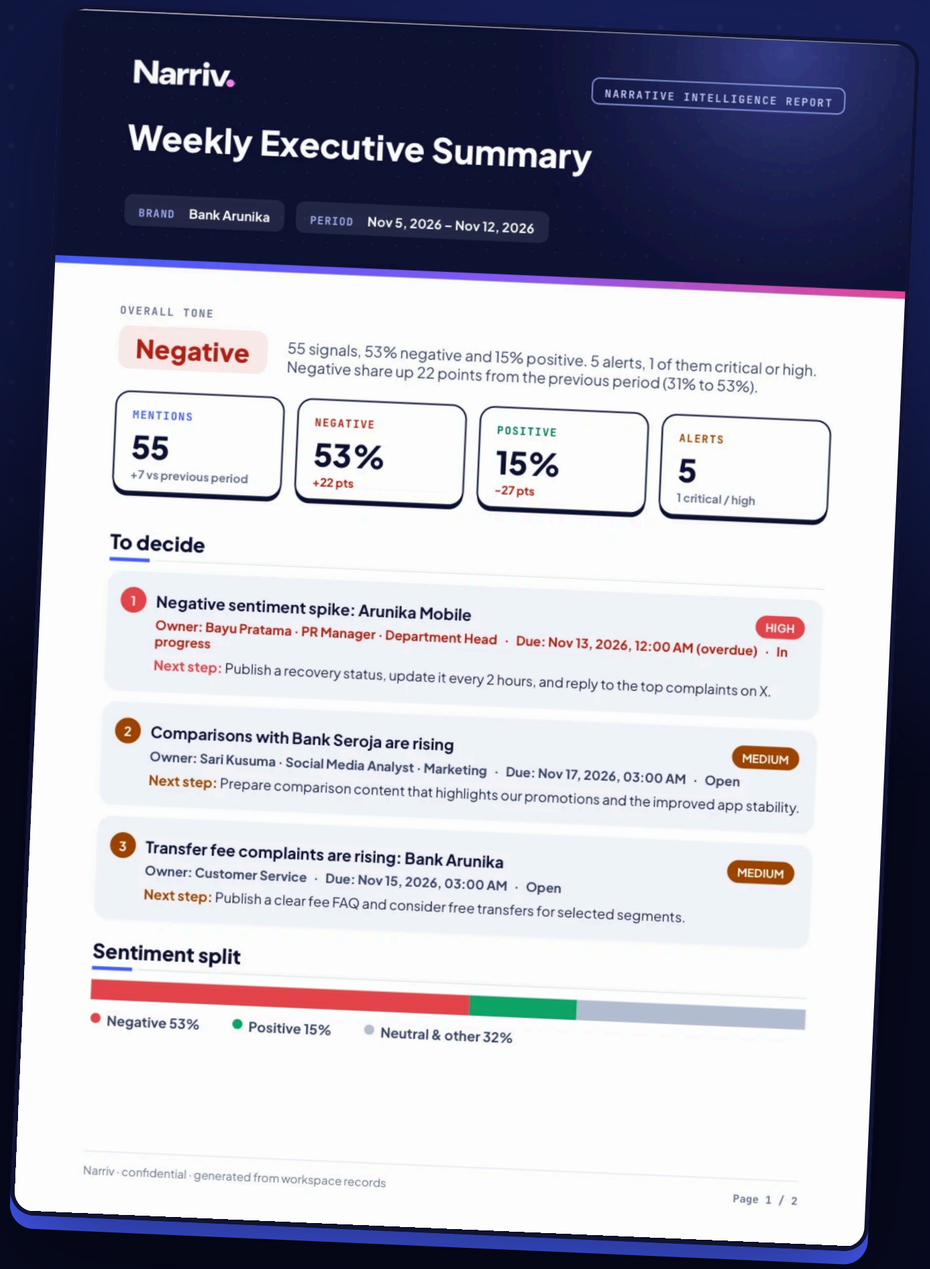

Overall tone, headline numbers against last period, then what needs a decision.

Scheduled, e.g. every Monday

PDF, Excel and CSV to leadership by email (scheduled reports from Intelligence).

Bahasa Indonesia or English

Pick the language before the report is generated.

Narriv.

COMPARISON

WHAT IS DIFFERENT?

More than social listening.

	Media monitoring	Social listening	Narriv

WHO IT IS FOR

BUILT FOR TEAMS ACCOUNTABLE FOR REPUTATION

For teams that can't be caught out.

Corporate communications & PR

Early warning, a daily brief and reports for the board.

Banks, telcos & SOEs

Service issues and customer complaints caught before they make the news.

Ministries & public agencies

Track narratives around public policy and respond with evidence.

PR & digital agencies

Several clients in one account, reports ready to send.

Narriv.

WORKFLOW

A DAY WITH NARRIV

From alert to resolution.

One issue, handled within hours and recorded all the way to the board report.

07.00

Daily brief arrives

What changed overnight and three steps for today.

10.12

Critical alert

App complaints spike; sent to the Digital Team.

10.30

The owner takes it

Status and deadline logged in the case.

14.00

Statement published

Narriv tracks whether sentiment settles.

Monday

Report to the board

What happened and what was decided.
